AlgoBars

BROKER & WHITE-LABEL PROGRAM

The Platform Behind Your Brand

A complete, AI-native algorithmic trading platform you run as your own. Your traders describe a strategy in plain English, the AI builds and backtests it, and it deploys live to 334 brokers. You get a turnkey brokerage that **wins traders and keeps them**.

No code. AI-native. Live in under 24 hours.

334
Brokers and 131 prop firms. MT4, MT5 and cTrader.

1,000+
Markets scanned across every asset class.

100+
Indicators and 100+ AI-detected patterns.

100%
White-labeled. Your name, your traders.

THE ALGOBARS WORKSPACE · LIVE CHARTS, SCANNER, PORTFOLIO ANALYTICS AND ALGO CONTROL

THE TRADER EXPERIENCE

Describe it. Backtest it. Deploy it live.

No code and no quants. A trader types an idea in plain English, the AI assistant turns it into a strategy, backtests it candle-by-candle, then deploys it live. This is the workspace they do it in, under your brand.

RANGE BARS · X-RAY · LIVE PATTERN ZONES · ONE-CLICK DEPLOY

STEP 01

Describe in plain English

Type the idea, or drag and drop in AlgoBuilder. The AI assistant writes the strategy.

→

STEP 02

Backtest & replay

Test on real history candle-by-candle, then watch it trade in the Replay Engine at up to 50x.

→

STEP 03

Deploy live

One click pushes it to the live market across 334 brokers and 131 prop firms.

WHAT NO OTHER PLATFORM HAS

Three weapons competitors can't offer.

Three capabilities built into AlgoBars that no other white-label platform brings to the table. Each one is a reason a trader chooses you, and stays.

THE CLOSER

Replay Engine

A time machine for strategies. Watch any strategy trade through months of history candle-by-candle at up to 50x, with a live equity curve. A rep can close a client in two minutes, and never gives advice.

STEALTH

Ghost Orders

Entries, stops and targets are held server-side and hidden from the broker order book. Zero stop-hunting, true 24/7 execution, included on every plan.

INTELLIGENCE

AI Market Scanner

Detects 100+ Smart Money Concept patterns across 1,000+ markets and paints them on the chart live: fair value gaps, order blocks, liquidity sweeps and more.

WHAT YOUR TRADERS GET

A complete trading edge, in your app.

Every capability below ships in every deployment, with cross-device sync. Compute and data are built into the per-account rate.

BUILD · NO CODE REQUIRED

- ✓ AlgoBuilder drag-and-drop
- ✓ Plain-English AI assistant
- ✓ Indicator Matrix fusions
- ✓ 100+ technical indicators
- ✓ Bot Strategy Generator

ANALYZE & TEST

- ✓ Range Bars & X-Ray Bars
- ✓ AI Market Scanner
- ✓ Candle-by-candle backtest
- ✓ Replay Engine up to 50x
- ✓ Predictive Markets & news

TRADE & SOCIAL

- ✓ One-click live deploy
- ✓ Ghost Orders
- ✓ Copy trading & marketplace
- ✓ Arena tournaments
- ✓ Price alerts & $1M paper

ONE PLATFORM · EVERY SURFACE

DESKTOP
up to 16 charts

WEB
nothing to install

MOBILE
iOS & Android

WHAT YOU CONTROL

A turnkey brokerage, already built.

A complete admin, compliance and growth suite ships live, not as a roadmap. You operate from day one without a development or quant team.

ADMIN & OPERATIONS

- ✓ Users & KYC tracking
- ✓ Deposits & crypto payouts
- ✓ Live trades monitor
- ✓ Subscriptions & MRR (Stripe)
- ✓ Risk controls & audit logs
- ✓ Instant brand kit & domain

GROWTH & BRAND

- ✓ Full white-label branding
- ✓ Affiliate & IB tracking
- ✓ Revenue & analytics
- ✓ Market data, all sectors
- ✓ 334 broker connectivity
- ✓ Automatic updates

DAY ONE

Live in under 24 hours

Add your logo, colors and domain and go live the same day. No build, no integration project.

COMPLIANT

Your desk gives no advice

Clients build and deploy their own strategies. You provide the tools, never the recommendation.

REACTIVATE

Wake your dormant books

Idle accounts come back to life the moment they can automate, turning dead weight into active volume.

WHY BROKERS CHOOSE ALGOBARS

The platform brokers can't build alone.

NO CODE

AI-native and no-code

Plain English to a live strategy. Your traders never write a line of code, so anyone can automate.

CLOSES DEALS

The Replay closer

The most powerful sales-demo tool in the market. Show a strategy work through history before a dollar is risked.

EXCLUSIVE

Two weapons

Ghost Orders and the AI Market Scanner are capabilities no competing white-label platform offers.

TURNKEY

Built, not a roadmap

A full admin, billing and compliance suite ships live. No quant team and no dev team required.

ALL IN ONE

One platform, every surface

Web, desktop and mobile. 100+ indicators, 1,000+ markets, 334 brokers, in a single workspace.

YOUR ECONOMICS

You keep the upside

Brand it, price it, keep 100% of the markup. AlgoBars is a technology licensor, not a revenue-share partner.

334	131	1,000+	100+	Sub-2ms
BROKERS	PROP FIRMS	MARKETS	INDICATORS	EXECUTION

See the numbers.

Your cost is $3 per active account or its compute, whichever is greater, and $5 per million in volume. No licence or setup fee. You keep 100% of whatever you charge your traders. Full terms are in the AlgoBars Pricing & Commercial Terms.
